

# How to use open-source platform plugins with Swedbank Payment Initiation WooCommerce

- 1 Download the plugin from <http://sppdemoshop.eu/#banklink>
- 2 Go to the Wordpress admin panel <https://sample-shop.ee/wp-admin>
- 3 Find **Plugins** in the menu on the left and click **Installed Plugins**.

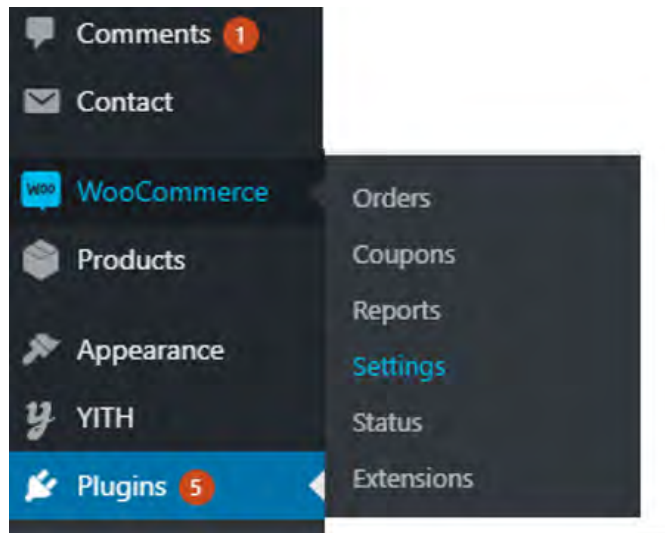

- 4 Find the **WooCommerce Swedbank gateway V3** plugin from the list of plugins.

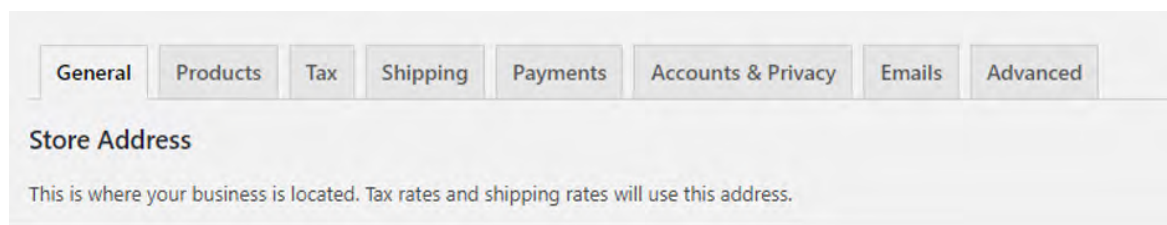

WooCommerce Swedbank gateway V3  
[Activate](#) | [Delete](#)

- 5 Click on **Activate** (now your plugin should be activated).

- 6 In the menu on the left, find **WooCommerce** > **Settings**.

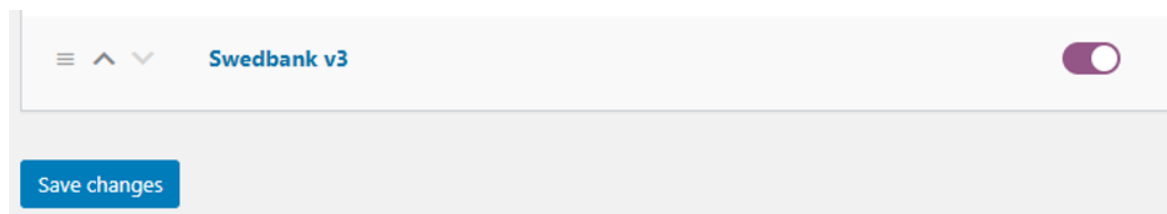

- 7 In the WooCommerce settings select the **Payments** tab

You will see all the payment methods on your WooCommerce e-shop.

- 8 Find **Swedbank v3** and activate it.

- 9 Click **Save changes**.
- 10 Click on the **Swedbank v3** payment method to configure your payment type.
- 11 Click the checkbox next to each payment type you want to be available in your shopping cart.
- 12 Scroll down to the “Bank Link Payment Initiation” section and then to the country where you have a valid Payment Initiation contract. (example: I have an active contract for Payment Initiation in Estonia, so I only need to set the configurations in the “For Estonia” section).

## For Estonia

Signed contract with Swedbank Estonia for stand alone Swedbank Bank Link and/or Payment Initiation

\*To generate certificate please fill fields: "State or province name", "Locality name", "Organization name", "Organizational unit name", "Comm

[Save changes](#)

- 13 Seller ID = VK\_SND\_ID (the Merchant ID provided by Swedbank).
- 14 Private key (the certificate is generated by the E-shop owner) If you already have a Regular Swedbank Bank Link then you can use the same Private key for initiating payments from other banks.
- 15 The Swedbank Public key is already defined in the plugin – you don't need to change it.
